No. 3,618—Fourteenth Year | Buenos Ayres, Thursday May 21 1874 | Circulation, 3000.

MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto' Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult of frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel. Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrs again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incenes that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,100 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

NEW ADVERTISEMENTS

PECTORAL NOTICES.

A CHRONIC COUGH CANNOT BE CURED by means of a simple lubrication of the irritated throat. To make a permanent cure the medicine used must contain something and healing ingredient, which may be readily absorbed by the affected parts, the lungs; with all its healing properties unimpaired. Experience has proved that the Pectoral of Anacahinta, consisting of an extract obtained from a renowned medicinal tree of Mexico, which is full of the very properties required, besides being easily absorbed by the organs of respiration. It therefore follows that speedy and permanent cures are effected by this great remedy in all affections of the throat, chest, and lungs, provided the disease has not been allowed to progress beyond the reach of human aid. If a teaspoonfull of Laman and Kemp's pure Cod Liver Oil is mixed with two teaspoonfulls of the Pectoral and taken, the best possible results will be obtained.

THE TUCUMAN RAILWAY.

So much clamor is often made in B. Ayres without cause that it is well to pay little attention when the credit of an important enterprise is at stake. It is only 18 months since the first sod was turned of the Cordoba and Tucuman line, but the workmen had hardly pitched their tents on the Tablada when all kinds of rumors were set current against the contractors, Messrs. Telfener and Co. It was said they had not paid for the lands, and the Cordoba papers mentioned the generosity of some gentlemen in giving their ground gratis, when Mr. Lumb publicly shewed in Buenos Ayres the receipts by the very same gentlemen for respectable sums in purchase of the said lands.

The National Government has just published the report of the Department of Engineers and Government Inspector on the work done and payments made on the first 4 sections of the line up to May 1st, 1874.

Expropriation of land	69,399$f
Clearing the route	29,663
Earthworks	538,253
Bridges	53,636
Permanent way	107,637
Stations	18,680
Rolling Stock	70,125
Surveys and vigilance	195,988
Materials on hand	979,381
	2,062,644$f

The contract signed between the contractors and the Government lays down that the latter shall pay 14,199 per kilometer (say £4,560 per mile), over and above a bonus of 170,730$ at the conclusion of the line, and that all works of unfinished sections shall be paid 90 per cent of their assessed value as by report of Government Inspector.

The line has been cleared for 365 kilometers, of which the land has been paid for on 280 kilometers. The earthworks are made in 4 sections, thus:—

	Kilom.
Cordoba to K	140
From 140 to 160	10
„ 182 to 250	68
„ 411 to 492	81
	299

This is equal to 187 miles or about half the entire length, but the rails are being laid or already completed on only 81 kilometers, say 50 miles.

If we suppose that the works on the first and second sections are equivalent to 50 miles of road the account would stand thus:—

50 miles at 14,199$f	709,950$f
Materials on hand	979,387
Other works	373,207
	2,062,544$f

Persons critically disposed may question whether the contractors have really on hand materials to the value of 1 million patacons, but in like manner if so inclined you may question every item in Mr. Dahlquist's report, and suppose that he and Mr. Moneta are in collusion with Telfener and Co. to defraud the Treasury.

It would be as well to say at once that Government inspectors in such works are useless, or rather that the Government should not make railways at all lest some of the public money be wasted or embezzled.

The monthly publication of accounts is the best guarantee that the Government can give the public, and any reasonable man will be satisfied with the table in yesterday's *Tribuna*, shewing how many yards of rails laid, how many cubic metres of earth removed, how many culverts, how many sleepers, how many fish-plates, how many rails on hand, and how far advanced generally the works of this great national enterprise.

THE TRANSANDINE RAILWAY.

SURVEYING PARTY ATTACKED BY INDIANS.

Mr. Clark's engineers were attacked by Indians on the 9th inst. between Junin and San Luis, the following particulars being supplied in a private letter reproduced in the *Republica* of yesterday.

Mr. Louis Huergo, chief of the surveying party, was accompanied by Mr Stephen Dumesnil, the government engineer, and a staff of assistants. They started on Saturday the morning of the 9th inst. from Fort Verde, towards San Luis, to mark out the route, being escorted by Major Aureliano and 27 troopers. At noon the scouts ahead gave alarm of Indians in sight, whereupon Huergo and Aureliano hastened to collect their men, some of whom with Dumesnil were two miles off, surveying.

A square was at once formed, 120 yards on each side, with the cattle and horses in the centre. The north line was formed by 3 waggons, defended by Huergo and his assistants, the south and west sides by the 27 troopers, and the east by the gaucho peons, who had tied knives on long sticks for lances. As the wind was from the north it was expected the Indians would set fire to the grass on that side, and to prevent the flames reaching the carts a wide ditch was hastily dug.

At half past 1 the Indians appeared westward, driving the engineers, scouts before them at full speed, the savages being about 50 in number, splendidly mounted, and coming down like a whirlwind, in line of battle, within 500 yards of the square. The Cacique then rode forward to within 300 yards for a parley, and Major Aureliano advanced to meet him; the former accused the Christians of coming to plunder the Indian hunting-grounds, and offered to allow them to retire unhurt if they left their waggons and cattle to the Indians.

The Major replied that if the Indians would be content to take a ration of beef for all present he would give it to them, otherwise a fight was inevitable. The Cacique turned quickly round, brandished his lance as a signal, and a trumpet sounded from the Indian ranks, at the same time that a volume of smoke appeared northward, and the savages came down with a thundering charge on the troopers of the west face.

At a distance of 60 yards they were received with a volley which sent some of them rolling from their horses, but without being at all dismayed they made a flank movement on the north side where the engineers were posted behind the waggons and received them in like manner with a deadly volley.

Just then the horses and cattle in the centre, which had not been tied in the haste of preparations, were seized with terror at the approaching flames and the loud reports of musketry, and broke through the southern line of troopers, running frantically over the camp. This was just what the Indians desired, and they accordingly desisted from the attack, to go after the cattle.

Major Aureliano mounted his men and started in pursuit, while Huergo and his assistants endeavored to save the waggons from the flames. The Indians in driving off the cattle made a stand 3 times and fought so wickedly that the Major and 3 of his men were badly wounded with lances. It was, therefore, impossible to continue the pursuit, the troopers horses being also quite exhausted. The battle had lasted 3 hours, and 12 Indian corpses were counted on the field, two having been shot by Huergo and one by Dumesnil. Litters were made of ponchos and arranged in the waggons for the Major and wounded soldiers, the cavalcade proceeding slowly back to Fort Verde, where they arrived half-dead of cold and hunger at 2.30 next morning, the darkness of the night being lit up by the blazing camp for over two leagues, which served to guide them in their course.

MONTEVIDEAN LETTER.

May 18th 1874.

This has been such a cold, miserable and stormy day that I am glad no steamer leaves this for yours; the only excitement has been the bay, where vessels tumbled and rolled to such an extent that I felt thankful that I was on shore—the German brig Aeolus whose cargo I reported as having been sold for some port in the Parana has been in danger since last night, and should it come on to blow stronger it is evident to old mariners that she cannot save herself; this afternoon she cut away her foremast and this apparently has helped very considerably. The Austrian brig Fanny P. and the British barque Chieftain have been in collision, the latter being the greater sufferer by having her bowsprit and all forward gear carried away; apropos of crews being in danger I may mention there is a rumour current here that a 'Sailors Home' is shortly to be started. I presume this idea has not as yet any good foundation, the very fact of the English Hospital, which under its able management is not able to support itself, is a proof that an institution of this kind would not pay in this city, and if you take into consideration that the greater part of the sailors to be found out of employ are deserters, deluded by hungry boarding masters to leave their hard earned wages on the promise of finding them better jobs. I think an establishment of the kind, with all due deference to the promoter of the question, would be a complete failure.

I note in my correspondence published on Sunday that a mistake occurred in publishing the sale of firecrackers for your city: instead of A. Cibils and Co. being the buyers, they were the sellers to one of your largest 'almaceneros por mayor,' bought probably by them with the object of making it a profitable investment at the nomination of your new President.

The Bolsa, as you may very well suppose, has been very dull to day, and the sales were very few: to say—

Deuda Interna, 2nd Series.
180,000$ at 58½ p 8 for end of month.
50,000$ at 58½ do do.

The 'Compania Oriental,' a steamboat company started by some steam speculators, has come to grief and has been declared as bankrupt by the Judge of Commerce. The only steamer owned by these parties was Conde d'Eu, whose debts will probably swallow all she might bring at auction.

In produce little has been done today, I heard of a sale of 2000 novillo hides at 84½ rls., and 1000 cow hides at 86½ rls. on board.

In exchange nothing has been done.

19th May.

The wind has gone down, and the question of the day is, 'Who shall pay for the damages done to the Æolus, Fanny P, and Chieftain?' This all requires investigation, and when well ventilated I will give you all particulars.

A double murder occurred last night at that charming spot known as La Paz. The victims were an 'almacenero' and his boy, two peaceable inhabitants; they were both found with their throats cut, but the latter had his hands cut off at the wrists, and with his entrails taken out. The object was evidently plunder, as the store was completely ransacked. Of course there is no sign of the assassins, who are probably some of our escaped Cerro prisoners.

A new paper has been welcomed on the editorial stage, which, from its name, should not pass without mention. It is called *Los Intereses Estrangeros.* The programme is very well written, promises a great deal; and I hope the editor will be able to climb up the ladder he has made for himself.

On 'Change to-day was very dull, and the following transactions were the only ones that took place:

Fomento Territorial.
70 shares at 35 for end of July.
Deuda Interna.
2nd Series.
60,000 at 58¼ p 8 for end month.

Messrs. Frank Livingston and Perry Davis were welcomed on 'Change to-day from your city.

Nothing has been done in exchange to-day, consequently no alteration in the rate can be quoted.

The building of the new dock on the opposite side of the bay will shortly be commenced. This dock is calculated when finished to take up vessels of upwards of 3,000 tons, and will fill a want much felt down here.

We expect a new opera company from Europe at the end of this month, and hope to give them as warm a welcome as you did yours a few days ago.

FLUVIAL GRIEVANCES.

Again have the authorities stepped in to throw obstacles in the way of steamers frequenting the Tigre. A few days ago the person in charge of the Capitania at the above port thought it his duty to ask permission from his superiors, to send all steamers outside immediately after discharging their passengers, and there remain till within an hour of their appointed time of sailing for their destination. This order was never communicated to me by the individual above referred to, but I casually heard of it through my captains, only one of whom, by the way, was notified in writing. The new order appeared to me to be so monstrously ridiculous that I instructed my Captains to take no notice of it; and if force was used to immediately abandon their vessels; matters soon came to a climax. The Provecdor after landing her passengers at the railway jetty had proceeded to make fast at her usual berth, when a party of sailors from the Capitania cut her hawsers and sent her adrift. Captain Risso, in obedience to my orders, at once abandoned the vessel with all his crew. This act of vandalism was perpetrated while the steamer had yet passengers on board: families where there are children do not care to come by first train to town these cold mornings; this was the case in the present instance. The fright of these poor people may be imagined when they found themselves drifting about the Tigre the sole occupants of the steamer. The Captain telegraphed to me for orders. On consulting my agents we thought it advisable, as we had already placed the whole matter before the Minister of Marine, to again take possession of the steamer, not doubting but a favorable answer would be at once returned to the application, and in which I asked for a commission of Argentine naval officers to decree whether my steamers did or did not obstruct the navigation of the Tigre. This was the ostensible reason why the steamers have been ordered out. To my repectful representations I have received no reply.

It may be necessary to explain that this operation of hauling out and in to the Tigre is attended with no small amount of labor and expense; the steamers arrive one morning and leave the following; frequently it is an operation of two or three hours to take a vessel out, and as much more to take it in again; they have to coal in this short time, and the requisite operation of cleaning them must be gone through to get them ready for passengers.

The additional expense this freak causes me I cannot estimate at a less cost in coal alone than 350 pats. per month, not taking into consideration wear and tear of hawsers, boats etc The Northern Railway some time ago erected a jetty for the express purpose of steamers going alongside and performing all their necessary operations. This of course is now completely inutilised, as well as the expensive chain moorings which I fitted there. Why do not the authorities put a pair of gates at the mouth of the Tigre and paint thereon "NO ADMISSION?" Both ship yards and engineering establishments are now virtually shut up; valuable machinery is standing covered with rust, while round the blacksmith's anvil rank weeds are thriving. The most trifling repairs in the engine department cannot now be done in the Tigre.

Another act of despotism may as well be laid before the public. Since the 15th inst. no steamer can be despatched unless having previously obtained a bill of health from the Capitania Central, for which is charged the trifle of 5 patacons; this, in my case, amounts during the month to the sum of $.90.

We are asked at every turn to follow in the footsteps of the Great Republic of the North. The President of the Argentine Republic has some knowledge of the laws, manners, and customs of his great pattern, and it would be satisfactory to acertain from him whether the floating palaces which ply between New York and Albany are subjected to a fine of five hard dollars each trip under the thin guise of being supplied with a bill of health. I am certain a skipper on the Thames plying from London to Gravesend, or his canny brother trading on the Clyde from Glasgow to "down the water", would look rather blue if their respective harbour masters were to offer them a piece of useless paper in exchange for a sovereign.

I have had dear-bought experience enough of the people of Rosario to know that small attention would be paid by them to any document coming from here did any epidemic exist. Why am I to be charged the high price of five silver dollars per steamer, or at the rate of 90 $f. per month, for informing them that the population of this city, male and female, are all well? I fully expect that the Captain of the Port of Rosario will at once take the hint from his brother in office here and transmit to us the jolly tidings that Rosarinas and Rosarinos are all in a state of salubrity. After him will, of course, come the smaller fry of San Nicolas, Las Hermanas, Obligado, San Pedro, Baradero, and Zarate; and last, though not least, Dr. Costa, of Campana, will be eager to inform us that the engineers and navvies on his railroad are all in the most exuberant state of health and spirits. All these Captains of Ports, of course, will recover the 5 pats. from the patient steamer. Some little time, of course, may reasonably be expected to elapse before we hear from our friends of S. Fe, Parana and Diamante, as they take siestas up there, but there is no doubt they will follow suit. Why is the Western Railway not compelled to take Patentes de Sanidad from the Parque to Chivilcoy. Another small grievance; why are the steamers compelled to pay light dues, which lights are never visible to anyone on board? Perhaps some free and enlightend citizen of the United States will answer me whether up river steamers on the Missisippi are compelled to pay for the lights on the bar of the great republican river? my own impression is that they are not.

If not encroaching too much on your valuable space, there is another matters to which I would call the attention of H. E. the President, and do it through your columns as I find respectful 'solicitudes' are not attended to. The matter is this; that my Captains have notified me that they will not be responsible for any damage done to the two vessels Talito and Don Gonzalo, which are generally made fast in front of the President's residence called Carapachay, where the small river is so narrow that the steamers have barely room to pass without being subjected to any obstruction; coming down, the steamers must necessarily pass there in the dark; no light has ever yet been shown by them, surely not much to the credit of two leviathans bearing such renowned names.

Apologizing for this trespassing so far on your space, but knowing that you look more to the interests of commerce than to matters political, perhaps you may find for these jottings a corner.

David Bruce.

EDITOR'S TABLE.

The French packet Erymanthe has at last put in an appearance; she was at Pernambuco on 8th; will be at the Mount to-morrow. Her news from Europe is to the 23rd ult., but there is nothing particularly fresh. Sir Stafford Northcote intends to devote Mr. Gladstone's three million surplus to abolishing the duty on sugar; so the Tories have apparently taken a leaf from the political cookery-book of their predecessors in office, and are going in for the 'free breakfast-table' theory. Our North American subscribers will find the latest news from the States in our telegrams.

Two days' mails from the sister city were delivered yesterday morning. The storm on Monday morning seems to have been terribly severe down there, yet no loss of life occurred. Our Montevidean Letter, in addition to its usual ample details on commercial subjects, records a revolting and fearful murder, the victims being an honest and industrious grocer and his shop boy: the escape of the Cerro ruffians is beginning to tell. It is hard to say now whether law and order are more set at defiance in Montevideo or here.

We erred yesterday in stating that Congress did not meet on Monday, but we were told so by an intimate friend. There was an Asamblea General, and it refused to accept Dr. Alsina's resignation as Vice-President of the Republic by the stiff majority of 28 votes. The *Nacion* of yesterday published a remarkably energetic article on this result.

We had the pleasure of receiving yesterday a polite and pressing invitation from Mr. Aikman, the president of the Salto Cricket Club, to attend a grand match between that Club and the Concordia men on Monday next, the glorious 25th. We should be delighted to attend, could we leave the editorial wickets to take care of themselves for a few days; but we cannot; the very look of the dinner ticket which accompanied the invitation gave us an appetite. We wish the Salto Club every success. Its president begs us to mention how much the members are indebted to the B. Ayres Cricket Club for kindly sending them several things they could not buy here and which they lack until their own war 'materiel' comes out from England.

We don't like saying much about Postage Stamps while Hibbert's back is turned, still, it can do no harm to anybody to give the following table, which shows the enormous business he must have done in the article for years past. It is also a gratifying proof of the rapid and continuous progress of the country. Pres. Sarmiento is right in gauging a nation's intellectual and material advancement by its consumption of pens, ink, paper, books, 'diarios' and postage-stamps. The following is a Ten Year's retrospect of the Postage-stamp sales:—

The excess of total Post-office receipts in 1873 over 1872 was 22,727 hard dollars. Very good indeed!

The members of the Thespian Society are hereby notified that a meeting of the committee is called for this evening at 8 o'clock, at 121 Calle San Martin (altos). There must be another performance in the wind, judging from the frequent meetings of our histrionic friends. What about the ladies? Have any fair volunteers turned up yet?

Messrs. Waring Brothers have completed the works of the Central Uruguay Railway to Durazno; and the line has been examined by the company's engineer who has pronounced it finished, and ready to be opened to public traffic. The government has been applied to for its sanction to the act, and in consequence a commission of engineers connected with the Public Works Department has been appointed to inspect the railway. The commission began its labours on Monday the 18th instant, and it is believed that many more days will not elapse before the line is opened.

The ruction at the National Bank meeting on Monday night was within an ace of degenerating into a free fight, at least so we gather from the description of the fizzle given by some of our colleagues. After all, perhaps a decent shindy, on fair principles, is as healthy a way of passing time these cold evenings as making windy speeches on finance.

The National Government published in the *Tribuna* of yesterday morning an array of facts and figures in reference to the Tucuman Railway calculated to completely 'take the legs' from under our esteemed colleague the *Prensa*, which, in publishing lately some truly tremendous charges against the contractors for this line, evidently dropped, for once in its life, on what we call in Ireland 'a mare's nest.' The official figures seem conclusive on the matter.

The National Government has just been presented with a 'little bill' for army necessaries supplied by Mr. Stephen Adrogue to the nation in those days when Rosas never imagined that he would be vegetating at Southampton. This unpaid account, which is for the mere trifle of 279,000 pats., is to be sent to Congress, for whom to pay or not to pay will be the rub.

Leiva, the well-known Entre Rios rebel who played such an important part in the last scrimmage in that province, has just died in obscurity in one of the Santa Fe colonies. Leiva had dubbed himself a General, and commanded what he called The Army of the Parana—a band of 1500 well mounted Gauchos who gave General Gainza far more trouble than the distinguished warrior bargained for when he declared his "guitarrita" was ready for opening the ball and closing Lopez Jordan's career—till the next time.

The storm on Monday night played some pranks in the principal cemetery at Montevideo, knocking several tomb-stones, urns, crosses, etc., down.

We call the attention of our subscribers to an advertisement offering for sale a magnificent billiard table. We happen to know all about the manufacturers (Kavanagh and Decker), and as it is one of their best, it is a good opportunity. Some English merchants in town use these tables in their houses, and declare them "ne plus ultra."

The City of Buenos Ayres Tramway Company carried nearly half a million passengers in the month of April. This *is* prodigious.

A puffer at an auction mart was arrested on Monday for trying to pick the pocket of an old buffer who was bidding. According to the Commissary of the Section one requires to be rather smart to attend this mart (Rivadavia, 489,) with impunity, as copper watches and other valuable articles of jewellery are daily pawned off as real on a too confiding public. The pocket-picking puffer is strongly suspected to be a partner in this highly respectable concern.

We hear from Salto, B.O., that the works of the railway are now being pushed on rapidly between Arapey and Jacuy. Over 200 navvies are employed on the earthworks. A commodious workshop has been erected on the barranca at Arapey, and everything goes on swimmingly.

The present are stiff times for Steam Navigation Companies at home and abroad. The Courts at the Mount have declared the Oriental Navigation Company bankrupt; burst-up sky high, in fact. This was always a one-eyed concern, never having owned more than one steamer (the Count D'Eu) and he, No! she, only made one trip between B. A. and M. V.

A race will shortly come off at M. Video between our old, well, and favourably known friend "the Cooter" and a boat called the Patriota, of the same rig. The prize is rather a novel one. The loser pays to the winner a complete rig out, from stockings to a new hat, every stitch new, and also stands an "opiparo almuerzo" for twenty friends of the winner, who will pass judgment simultaneously on the treat and the toggery.

A London paper says—

"Baron Grant does not perhaps know the origin of the town which he represents, and we hope will long hold against all comers. It is this:—In the days of the Round Table there lived a British king, named Kidder; who actively sought the vote and interest of a young lady of Kidder with the following result, as the Poet Laureate of the time tells us:—

"King Kidder saw a pretty maid,
King Kidder would have kissed her:
The damsel slipped aside and said,
'King Kidder you have missed her!'"
Kidderminster—Kidderminster.

Rosario has never been considered very wicked, notwithstanding her preference for seedy masked balls and other doubtful amusements, to say nothing of all the cock and hen robberies that take place within her bounds; she is now, however, firmly determined to turn over a new leaf. At the conference held there on Sunday to debate on the erection of a new church, it was decided, after considerable discussion, to build two, one a short distance from the Plaza and the other on a site to be agreed upon, the old church to remain available. This will give Rosario three churches, and we hope she will make good use of them. Two bootmakers had a desperate scrimmage on Sunday night; both were badly 'awled,' and one of them was hauled to the lock up. The rain on Sunday put a stopper on the bull fight. The premises formerly occupied by the Maua Bank are likely to be the quarters of the new Provincial Bank.

A young thief called Joe Left has been arrested in the partido of Carmen for making off with a big lot of sheepskins from the well known Tatay estancia. It is not the first time he has thrown sheep's eyes on other people's sheepskins.

Mercedes is going in for a prodigious flare up on the 25th. The row will begin on the previous day at noon with that good, old standing dish, Rockets; then noise from the local band from 4 to 6 o'clock, after which concert, more rockets, a balloon and bed. The next day Rockets from morn till night, a row by the band from 11 to 1 o'clock, a balloon and a Ball.

Accounts from the camp are most distressing, cattle dying in scores, and robbers and murderers prowling about everywhere. The estancieros in many partidos are forming safety committees. This will be of no use unless these Committees Lynch the miscreants they catch.

At a recent wedding in New York, among the bridal presents was carelessly displayed a cheque for 100,000 dollars, drawn to the order of the bride and signed by her father. One of the guests was the cashier of the bank on which the cheque was drawn. He was one of those disagreeable people who can never appreciate a joke, and who always delighted in telling the truth when it is unpleasant to somebody else. This gentleman threw a damper on the spirits of the party by declaring that the generous father of the bride never had more than half 100,000 dollars to his credit in the bank since his account was opened.

Motto for Ministers (by a Scottish Licensed Victualler). Beer and forbeer.

Baron Nicolai, a distinguished Russian General commanding in the Caucasus, recently renounced the sword for the cowl, and entered a Carthusian monastery at Grenoble. The Czar did all he could to persuade the General to remain in the army, but the gallant officer wanted to "make his soul," and took the irrevocable vows.

A cynical writer says:—"Take a company of boys chasing butterflies; put long-tailed coats on the boys, and turn the butterflies into guineas, and you have a beautiful panorama of the world."

A Chicago educational journal is of opinion that whipping is a better punishment than detention after school hours, because it sets the blood in circulation, and causes increased activity of the brain.

A husband has been found for Miss Rose, the giantess that exhibited herself last year in Calle Peru. The happy monster selected is a man named Goshen, who is now astounding the States by his awful proportions. A match-making editor in Montevideo has written to Goshen to come down and see if he would like Miss Rose to the extent of "for better for worse". The editor wants to see what size the young Goshens will be.

An Inspector of Police named Betancourt, a Portuguese, died lately in Lima. He was scarcely in his coffin when news arrived that a wealthy relative at home had died and left him £490,000. His widow and children will, of course, inherit the money. This bit of luck beats the 70,000 ounces hollow.

The Cordoba papers report that Mr. Nessi of the Tucuman Railway was near being smashed last week by his horses running away with him; he escaped, thanks to his presence of mind, with a terrific 'cropper.' Dr. Loti, a homeopathic practitioner, has been hauled up at the police office for wishing to try that fanny system of cure on the Cordobeses. This is too bad. The most harmless of doctors are homeopathists. If they cure no one, they kill no one; and this is more than can be said for their allopathic brethren. The seca has ruined a great part of the Cordoba maize crop.

Messrs. John Jackson, Jaime Cibils and John Gowland are about to construct a grand dock at the Cerro, and only await Government sanction to begin the work.

Last week, as we announced at the time, an enormous quantity of cigars was stolen one night from Messrs. Sievers establishment. The thieves paid the place another visit on Tuesday night, and returned the cigars—every one of them!!

Oh Moses! what next? A city auctioneer offers for sale to-day by order of the Courts "a luxurious vault in the Recoleta Cemetery, suitable for a Society or very large family"!!! Faugh! This is simply disgusting. We dont blame the auctioneer, who must sell to live; but the business is repulsive and in the worst taste.

A more lively kind of auction, also to come off to-day, is the sale of absent Mr. Le Rossignol's furniture by Bullrich, at No. 444 Calle Suipacha. Those who want good furniture ought to attend.

ON 'CHANGE

May 20, 1874.

Ounces	400
Sovs	122½
Pats	26
Nat. Bonds	76
Cedulas	82½

The Cedula market was slightly weaker to-day than yesterday; the business done was not large, but there seems a greater disposition to sell than to buy, and the fact of the private banks refusing to discount has tightened money in the open market.

Some queer rumors from the camp were current in certain circles. We are so slow to believe these rumours that we await further advices from outside before publishing them. Things, however, look in a most unsatisfactory state, and this great feeling of uncertainty is beginning to tell on the market.

The sales to-day were—

Cedulas.

For cash	3,000	82½
do	1,400	82½
For Saturday	3,600	82½
do	17,400	82½
For end month	130,000	82½
June 30	10,000	82½
May 31	12,000	82½
June 30	20,000	83

National Bank shares show a fall of 2 per cent; 190 shares sold at 90.

In the liquidation the following sales—

For end month 80 000 82½

The sale of 12,000 Cedulas, Series B, was reported to-day at 82.

At a late hour the Cedula market ruled a shade stiffer, and buyers were offering 82⅝ for end of month; few sellers.

In the loan on Cedulas of 40,000 pats. at ¼ reported in our last the Cedulas were taken at a valuation of 80.

The Halley will sail on the 22nd inst. The Hipparchus is looked for to-morrow. The Leydon will be out of quarantine on Friday; the captain died of liver complaint.

A gentleman arrived down from the rivers to-day reports the killing at the saladeros as shortly about to stop. The state of the cattle is assigned as the cause.

The liquidation of a Registro firm was spoken of on 'Change to-day.

Exchange rules at 49⅛, and a fair amount passed. The Bank was applied to to-day for bills for Liffey, but the Clerk reported no orders yet. Exchange on Antwerp, 5.21; on Paris, 5.19.

Some good wool sales in the Plaza Once are reported this morning.

4 carts good wool at 82
8 do do, 76
2 do do, 75

It was very generally said on 'Change that the news per mail about wool and hides is good. In the States wool improved, and hides 26½c.

The steady fall in the Montevidean Deuda Interna is ominous. Only one man, it seems, sustains the market; if he goes, then the crash down there, it is feared, will be severe in all description of stocks.

Money ruled tighter to-day than yesterday, and the discount brokers report great unwillingness on the part of bankers to do anything at present.

News from Europe at last was received to-day by way of telegram from Pernambuco to Rio, and from thence to the Plate by steamer Newton. The most important news is that President Grant has vetoed the new greenback emission bill, and in England the Chancellor of the Exchequer has proposed a bill to abolish the import duties on sugar. The bank rate is still 3½, which is rather a good sign for those connected with Argentine enterprizes. We expect by the Neva to hear of the final closing of the subscription list of the new Anglo-Argentine Bank, as also the sale of the concession of the Rosario Mortgage Bank.

The mails from Montevideo to-day were important. In our "Montevidean Letter" will be found everything going on. We notice the collapse of the new Steamboat Company, which was started last year; the new company never had much of a foothold here, and only owned one steamer. The whole concern is now gone smash; in fact, so situated is the River Plate market at present, that any new joint stock concern started now is surrounded with great difficulties.

Farmers from the north camps who arrived to-day report cattle still dying in many districts; they attribute it outside to the young thistle. Whatever may be the cause the mortality is very severe, and the cattle estancieros are losing heavily this year. The present weather is favourable for the pasturages, and the camps are coming round wonderfully in certain districts, but the flocks are thin and in poor condition, and bad prospects for the winter trade of the graseries.

The s.s. Jupiter in her last trip to the Mount took down about 16,000 pats. in gold, of which 14,500 pats. were to the Maua Bank. We note that gold still goes down to the Mount.

The news from Salta respecting the Santa Rosa Railway is favourable. The works are pushing ahead fast, some 200 workmen employed. The locomotive runs out already 12 miles from Salto, and the earthworks are finished some 20 miles farther. On the banks of the Arapey the contractors are putting up some splendid workshops.

The *Boletin Oficial* of to-day publishes the official export table of the Custom House for the last quarter of 1873, which is important—

Wool, 52,255 bales, 20,769,188 kilos.
Sheepskins, 9,245 do, 4,305,327 do.
Horse hair, 247 do, 105,787 do,
Garras, 95 do, 40,656 do.
Deerskins, 40 do, 12,384 do.
Goatskins, 21 do, 8,385 do.
Sheepskins, loose, 11,250 skins, 44,800 do.
Horse hair, 5 boxes, 621 do.
Feathers, 114 do, 10,288 do.
Potro grease, 20 do, 643 do.
Grease, 600 do, 20,607 do.
Tongues, 8 barrels, 74 doz.
Dry cow hide, 70,712 hides.
Do calf. 6,319 do.
Do horse, 3,956 do.
Salted do, 464 do.

The above table is for the three busiest months in the year, and is important. As it is signed at the Reguarda Vieja it may possibly not include the exports from the Boca, which is a most important item.

The National Bank we note has received another large consignment of notes from the States, which comes in free of duty. The Directors seem to proceed with much caution regarding the emission, of course when the branches up the country are opened we may expect a great increase in the circulation; at present the issue is small. We calculate that by the end of the month it will reach about 5 millions pats, and the Government deposit about the same figure.

We note in the *Boletin Oficial* that the Custom House authorities claim duties on materials imported by the Architect for the London and River Plate Bank building in 1868. These Custom summonses now swell to a list that would not fit in our columns; suffice it to say that if the Custom House is right then almost every firm in the market has to pay up, in fact the 'mesa revisadora' has discovered another 70,000 ounces under the floors of the aduana.

The treasury has ordered the payment of 1950 pats. to Messrs. Zimmermann Fair and Co. for postage stamps received from the States.

To-day there was much attention caused by the well known porters of the Bolsa appearing in bran new livery. The apparel now speaks the man and his vocation. Garcia, who is now Bolsa porter for the last 20 years, looks ten years younger in the new suit. Some brokers object to the livery as anti-Republican. These must, indeed, be hard shell democrats.

The Bonnemason s.s. Poitu cleared to day for Europe with a full cargo and heavy passenger list.

Mr. M. Rom left yesterday afternoon for Montevideo, to catch the Pacific steamer Aconcagua, expected hourly from Valparaiso. Mr. Rom's long connection with the Bolsa as manager, and his large market, land and other transactions, have made his name a household word in this plaza. He goes for a short trip to Europe, and we believe, has been entrusted with some important commissions, in which we wish him the greatest success.

Captain Bruce's letter, which will be found in another column, is about the greatest exposé of port abuses we have ever published. No wonder that our steamboat industry withers and our ship yards are shut up, when such blighting official despotism is tolerated as that shown up by Captain Bruce. This letter ought to be published in Spanish by the *Pampa*, and if there is a spark of public spirit in Congress, the Minister who allows such unprecedented abuses should at once be impeached. However, Captain Bruce will not have very long to wait: the present men in office are on their last legs; they soon go out, and we feel quite certain that Dr. Bernardo Irigoyen, the new Prime Minister, will at once put a stop to all these shocking abuses of authority.

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach very lrge amount.

These advantages have not hitherto been enjoyed inthis city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries. and other frivolities.

The Bank of Mauá & Co. of thiactiy, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 10 3 Calle Cangal from Nine a.m. till Three p.m. every day, for th reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

NAVARRO RACES

THE MANAGING COMMITTEE beg to announce these races for the
1st and 2nd September,
and have received such unqualified support in their efforts to organise this Reunion that they have much pleasure in offering to the public the following exceptionally good programme.

The Navarro Races have deservedly attained much popularity in the Camp. The Articles are distinguished for their liberality, and the Committee venture to anticipate, with such inducements, that the ensuing meeting will be an unusually successful one.

Through the indefatigable exertions of the Committee, they have succeeded in obtaining the same ground as they had last season, and some necessary improvements will be made in the Course; and they hope that nothing has been left undone to render the September Meeting a thorough success.

RULES AND CONDITIONS.

1st. That the decision of the Committee in all matters and disputes be final and conclusive.
2nd. The Horses to be ridden in English style.
3rd. That the English-speaking community be qualified to become Members of the Club on payment of the annual subscription, viz., $200 m/c.
4th. Half-breds to carry 12lb. extra.
5th. All entries to close on the 17th of August.
6th. That the Races be conducted according to the Jockey Club Rules.

The Secretary will be happy to hear from any one desirous of assisting or becoming Member of the Club.

JAS. F. B. GAHAN.

XVII. That Subscribers shall have the privilege of recommending one In-patient annually for every $50ft. of annual subscription, such patient to be free or all charges, and that a patient so recommended shall be admitted on presentation of the letter of admission furnished to such Subscribers by the Secretary to the Hospital.

Collectors shall also be entitled to a similar letter of admission for each $f.50 collected by them in smaller sums.

XVIII. That all accidents, cases of poisoning and other urgent cases be admitted at any time without an official order at the discretion of the Medical Officer or House Surgeon.

XIX. That an order from the British Consul, the Chaplains serving on the Committee, or the Visiting Medical Officers, guaranteeing the poverty of the applicant, be sufficient to procure him admission, subject to such arrangements as the Committee from time to time may direct.

XX. That, so far as the Hospital accommodation shall permit, other patients be received on payment of such a daily remunerative rate as shall be fixed by the Committee.

ORDERS OF ADMISSION.

Persons desirous of obtaining admission to this Institution, and not being provided with a Subscriber's Order, are requested to make prior application at the British Consulate, Calle Corrientes No. 49, between the hours of 10 a.m. and 4 p.m.

Bristol's sarsaparilla
Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsagarilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uninformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint syou in the cure of.

Salt Rheum, Tetter, Scald Head.
Syphilis, or Veneral Diseose.
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever,
& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excesive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to mal fnuctional operations —c— 46
